

Dan Nadav, VP Sales, joined Echogen Power Systems LLC in 2012 to oversee Business Development and Commercialization initiatives. Dan has over 15 years of international experience in sales, business development, marketing, and project finance with leading technology and manufacturing companies primarily in the renewables sector. Prior to joining Echogen, Dan held management positions at Ormat Technologies, Repower AG and Gamesa Wind where he led sales, contract negotiation, financing, and project-development activities. There, he was responsible for

multi-MW transactions as well as the commercialization of various advanced energy-generating technologies. Dan holds an M.B.A. from Cornell University, Johnson Graduate School of Management.
