

Jim Koontz is the Vice President of Kinsley Energy Systems. Kinsley Energy Systems is the distributor of OPRA turbines in the Eastern US and Caribbean. Prior to joining Kinsley Energy Systems, Mr. Koontz was a Director of Business Development for SourceOne, a subsidiary of Veolia Energy. Projects included a wide breadth of CHP-related assignments to include project development, feasibility studies, plant selection & sizing, financing, O&M, installation, commissioning and ongoing operations.

During his 20+ year career, Mr. Koontz has been involved in CHP and On-Site Generation in several capacities. Mr. Koontz was with Duke Energy, and served as the Vice President of D-FD Bridgeport Operations, providing O&M services to a 520 MW Cogen plant located in Bridgeport CT. Mr. Koontz was with Nalco Company and provided on-site services to a wide span of CHP and on-site generation facilities from 2 MW to 500 MW in size.

Mr. Koontz was a Naval Officer and Gulf War Veteran, serving onboard the USS Roanoke in various engineering roles.

Mr. Koontz received his MBA from Rensselaer Polytechnic Institute, and his B.S. Degree in Mechanical Engineering from Norwich University.
